STEP 1

GETTING TO KNOW YOU AND YOUR NEEDS

FROM SKETCH TO SPEC: DESIGN & TECHNICAL DRAWINGS

TECHNICAL DRAWINGS

PACKAGING DESIGN

PROFESSIONAL PRODUCT PHOTOS

STEP 1

Not sure how to get started? We can help you spark innovative product ideas and turn them into reality.

PRODUCT HUNTING

STARTS AT \$550

Our product hunters are experts at identifying trending products with high sales potential. We provide detailed reports that analyze Amazon fees, net margins, and net profit, giving you a clear picture of your potential earnings.

From Sketch to Spec: Design & Technical Drawings

PRODUCT DESIGN

PRICE BASED ON PRODUCT & REQUIREMENTS

Our experienced product designers will work closely with you to transform your vision and ideas into a tangible product. Through a collaborative design process, we'll refine your concept and ensure it's ready for successful mass production.

TECHNICAL DRAWINGS

STARTS AT \$300

Have a brilliant product idea but need to translate it into clear instructions for manufacturers? Our design team can transform your sketch into detailed technical drawings. These drawings will provide suppliers with all the necessary dimensions, tolerances, and specifications to produce your product accurately and efficiently. Clear technical drawings eliminate confusion and ensure your vision becomes reality.

STEP 1

PACKAGING DESIGN

STARTS AT \$200

Our design team can craft the perfect packaging to make your product stand out. We'll create a design that is durable and protective, eye-catching and communicates your brand identity and values, so unique that it grabs the attention of your customers, as well as being eco-friendly to minimize the environmental impact.

WHITE BACKGROUND PHOTOGRAPHY

STARTS AT \$400

Professional product photos with a clean white background are essential for e-commerce success. They showcase your products in their best light. Let us help you create stunning product photos that build the base of your listing.

STEP 2

SUPPLIER SOURCING AND EVALUATION

COMPLIANCE CHECK

PATENT CHECK

COMPANY AUDIT IN CHINA

FACTORY AUDIT IN CHINA

PACKAGING SOURCING

What certification and labels are required in the country you would like to sell?

COMPLIANCE CHECK

STARTS AT \$250

This involves evaluating your product against the identified regulations to see if it meets all the requirements. This might involve reviewing technical specifications, materials, labeling and if the testing in a laboratory is needed.

PATENT CHECK

STARTS AT \$250

A patent check can reveal if a similar invention is already patented. This can save you significant time and money you might have otherwise invested in developing and pursuing a patent for an unoriginal idea.

Knowing the patent landscape, including the type of patent (design or utility) allows you to strategically modify your product idea to avoid infringing on existing intellectual property rights.

COMPANY AUDIT IN CHINA

STARTS AT \$200

Choosing the right supplier is crucial for your business success. But how can you be sure they're reliable? Our supplier background check service provides peace of mind. We'll investigate your chosen company and deliver a comprehensive report, highlighting any potential red flags. This includes financial stability and legal issues. Make informed decisions and avoid costly partnerships. Let us help you choose the right supplier for a smooth and successful collaboration.

COMPANY AUDIT OUTSIDE OF CHINA

STARTS AT \$500

A reliable manufacturer can ensure consistent quality, efficient production, and a strong foundation for your business growth. Here, we'll guide you through some essential questions to gain a deeper understanding of potential partners: Do they adhere to ethical labor practices and fair treatment of workers? How do they prioritize worker safety and well-being? What measures do they take to minimize their environmental footprint? Can they meet your production volume needs? Who are their subcontractors, and do they adhere to the same standards? What quality control procedures do they have in place? What level of after-sales support do they offer?

By getting clear answers to these questions, you can confidently choose a manufacturer who aligns with your values and ensures your product's success.

PACKAGING SOURCING

STARTS AT \$500

Even if your current supplier can't offer packaging solutions, we've got you covered. We find you packaging suppliers specializing in your product category and working with your preferred materials (including sustainable options!). We understand your specific needs – product size, brand goals, and budget – and connect you with the perfect supplier who excels in your area. We'll handle communication and quote requests, freeing you to focus on your business.

STEP 3

ORDERING AND CONFIRMATION OF SAMPLES

SAMPLE QUALITY INSPECTION

LABORATORY SOURCING

SAMPLE QUALITY INSPECTION

STARTS AT \$200

Our local sample inspection ensures no wrong or faulty products are sent to you, saving you time and delivery costs. Our quality inspection team checks for any physical damages like scratches, dents, cracks, or misalignments. We verify labels and markings are clear, correct, and securely attached. The sample QI confirms the product's dimensions meet the specification and that all required functions are implemented as requested.

LABORATORY SOURCING

STARTS AT \$350

Need laboratory tests and certifications for your product? We'll simplify the process for you. We'll help you obtain quotes for the required testing, ensuring transparency and budget planning. We also support you during the testing stage and handle the communication with the laboratories, so you can focus on your main business.

STEP 4

PRICE NEGOTIATION AND ORDER PLACEMENT

PURCHASE AGREEMENT

ORDER MANAGEMENT

PURCHASE AGREEMENT

STARTS AT \$150

Before going into mass production and making a downpayment, it's essential to have all product requirements and contract terms defined in a mutually signed agreement. This does not only help in ensuring production will be completed exactly how you envision it, but also provides added security in case of future disputes. We'll help you create a comprehensive purchase agreement and negotiate favorable contract terms with your supplier.

ORDER MANAGEMENT

STARTS AT \$700

Free up valuable time by letting us handle your supplier order management. We'll handle your orders, so you can focus on your business goals.

STEP 5

QUALITY CONTROL AND INSPECTION

QUALITY INSPECTION DURING MASS PRODUCTION

QUALITY INSPECTION AFTER MASS PRODUCTION

CONTAINER LOADING INSPECTION

QUALITY INSPECTION DURING MASS PRODUCTION

STARTS AT \$350

This is essential to ensure that products meet predefined standards and your expectations.

The checking of raw materials and components for compliance with specifications before they enter the production line as well as monitoring the manufacturing process to identify and correct defects early, ensures consistency and quality at each production stage.

QUALITY INSPECTION AFTER MASS PRODUCTION

STARTS AT \$350

Production processes aren't perfect. Inspections at the end of production catch issues before shipment, ensuring only good quality products reach your customers. We organize quality inspections worldwide and discuss with you beforehand your specific requirements, providing a flexible check according to your needs.

CONTAINER LOADING INSPECTION

STARTS AT \$350

An inspection while loading involves checking products as they are being loaded for shipment to ensure they meet quality standards, are properly handled to prevent damage during transit, and confirming that the correct quantity of products is being loaded according to the shipping order. We also make sure all the necessary documentation, including shipping labels, invoices, and quality certificates are accurate and complete,

STEP 6

LOGISTICS

ORGANIZING YOUR SHIPMENT

IMPORT TARIFF OPTIMIZATION

CONTAINER LOADING QUALITY INSPECTION

3PL OR WAREHOUSE SOURCING

ORGANIZING SHIPMENT

STARTS AT \$300

We'll get quotes from our trusted network of freight forwarders to ensure you get the best price. Our forwarders will handle all the import paperwork and documentation, saving you time and hassle.

This means a smooth import process for your goods, getting them to their final destination efficiently.

IMPORT TARIFF OPTIMIZATION

STARTS AT \$300

Import tariff optimization refers to the process of minimizing the import duties and taxes your business pays when bringing goods into a country. We recommend a strategic approach to managing your import costs.

3 PL OR WAREHOUSE SOURCING

STARTS FROM \$1500

Struggling to find storage for your products? We can help! Our team will find you warehouses or 3PL (Third-Party Logistics) companies that meet your needs.

Further opportunities for your business

BRAND REGISTRATION - PRICE BASED ON PRODUCT & COUNTRY

A registered trademark grants you exclusive rights to use your brand name, logo, or slogan within your specific category. This protects you from competitors copying your brand and potentially misleading customers.

UTILITY/ DESIGN PATENT PRICE - PRICE BASED ON PRODUCT & COUNTRY

A patent grants you exclusive rights to your invention for a set period. This prevents others from making, using, selling, or importing your invention without your permission.

CANTON FAIR SOURCING TRIP STARTS AT \$3995

The Canton Fair, also known as the China Import and Export Fair, is a massive trade show that offers a wealth of opportunities for businesses of all sizes. The Canton Fair is the largest trade show in China, attracting exhibitors from a wide range of industries. You'll find everything from electronics and machinery to textiles, furniture, and consumer goods, all under one roof. This makes it a one-stop shop for sourcing new products and suppliers. The Canton Fair showcases the latest trends and innovations in various industries. Attending allows you to stay ahead of the curve and identify new product ideas to add to your offerings. Network with potential distributors, and other businesses from around the world. This can open doors to new markets and sales opportunities.

**IF YOU ARE ALREADY PRODUCING IN
CHINA, WHY NOT COMBINE THIS TRIP
AND ARRANGE A FACTORY VISIT WITH
YOUR CURRENT SUPPLIER?**

GUIDED FACTORY VISITS - START AT \$700

A factory visit allows you to build a stronger, more personal relationship with the people behind your product. This can lead to better communication, faster problem-solving, and potentially even more favorable terms in the future. Seeing the production process firsthand allows you to confirm that your product is being made according to your specifications and quality standards. You can identify potential bottlenecks or areas for improvement. Seeing your supplier's capabilities firsthand can help you plan future product development and identify opportunities for collaboration on new designs or features. Our team will not just take care of all logistics surrounding your trip and act as a translation service. An experienced sourcing manager will support you during the factory, making sure you get all the relevant information, and negotiate for you with the suppliers.
